

**RANGE :** Active Series

**FINISHES :**

*High-end active speakers combining sound quality and power, the LN05A offer a true all-in-one connected solution designed to deliver sound in large rooms from 20 to 50m<sup>2</sup>.*

Equipped with a 25mm fabric dome tweeter and two 13 cm concave drivers, this compact speaker delivers surprising power and energy. LN05A offers ease of use with Bluetooth aptX connection to provide outstanding audio quality. These speakers will appeal too to the fans of 33 & 45 rpm records with their phono preamplifier, making it possible to connect any vinyl turntable.

Featuring optical/coaxial inputs, you can connect the speakers to your TV set and a SUB output to add a subwoofer and enrich the sound of your movies and series.

LN05A are supplied with a remote control with frequency settings, a 5m speaker cable and decoupling spikes.
